

# OUR GREEN COMMITMENT

LightCorp is proud to manufacture high-efficiency, cost-saving solutions that furnish the workplace with productivity-enhancing lighting. We remain focused on implementing the latest technologies to produce energy saving, environmentally safe products.

## HOW WE DO GREEN:

- All of our products contain a non-removable, mercury-free LED array or recyclable, low-mercury fluorescent lamp
- Dimmable, daylight harvesting and occupancy sensing products
- Our Environmental Management System is certified to ISO 14001 which proves a commitment to environmental practices throughout the organization
- Maintaining high quality standards through an ISO 9001 certified Quality Management System
- Energy Star Partner
- Michigan Clean Corporate Citizen
- Michigan Business Pollution Prevention Partner since 2004
