Metallic Silver 058

- Non-standard finish colors available for an extra charge. See the Products and Specifications Guide for a complete listing.

- When specifying metallic colors, note that the end caps will be a non-metallic accent color.

SPECIFYING NOTES

- The starter power and master control fixtures are supplied with a 9' 18-gauge power cord with a 90º SW rotation fused plug. Both cords exit from the center of the fixture.

- Cord and power switch location on 24" fixture is left of center.

- Cords are not field exchangeable.

- The starter power fixture is available with a 90º, SW rotation fused plug only.

- One cord manager is included with each fixture, two cord managers included with each daisy chain fixture.

- When specifying the daisy chain option, specify one power cord fixture and up to three jumper cord fixtures and one end fixture—maximum total of five fixtures.

- The end line jumper cord has one jumper cord with male plug to complete daisy chain run. Length of jumper cord must be specified.

- The daisy chain cord needs 3" of clearance from cord exit to wall for avoidance of cord damage.
