

# NIK - LV

Nik-LV, which stands for Nik Low Voltage, is a safe, low-voltage power source that features four configurations of USB ports with up to a robust 60W of power to fuel larger-draw devices. Designed to be versatile, it can be used on its own, daisy-chained with other Nik-LVs, or even linked in multiple strings of units when powered by our Angus product. Nik-LV mounts beneath, within, or clamps to surfaces and can be installed within soft furnishings in dozens of finishes to harmonize with any décor.

# NIK-LV

DC Power Unit

## FEATURES

- Choose from four standard configurations of USB-A and USB-C charge ports.
- USB-C ports are available in 18W or 60W (for use with electronics that draw a larger load).
- USB charge ports gradually power down as charging cycle ends to prevent overheating and/or over-charging.
- Nik-LV is able to be interconnected to power up to 5 units with one power supply. (Available Q1 2022)
- Can be used with a stand alone power supply or can be powered by connecting to the Angus power distribution unit.
- Clamp mount installs on the work surface without tools.
- Proudly designed and manufactured in Grand Haven, Michigan.

## SPECIFICATIONS

### USB-A CHARGE PORTS:

2A (up to 10W each)

### USB-C CHARGE PORTS:

supports PD protocol, specify 18W or 60W

### INTERCONNECT CORD: (IF APPLICABLE)

6' cord in black

### POWER SUPPLY:

(IF APPLICABLE)

40W or 60W in black

### MOUNTING:

clamp, under-surface or in-surface

### MATERIAL:

powder-coated aluminum

### CERTIFICATIONS:

UL1310 listed power supply; Canada C22.2 308-18; FCC CFR-47 Part 15 Class A; TAA; BAA; USB ports compliant to USB-IF BC 1.2

### WARRANTY:

2 years
