CARE OF YOUR PRODUCT:

If the fixture is used in a dusty area, an occasional wipe with a dry cloth may be needed.

MAINTENANCE:

The products listed at left contain LEDs with a rated lifespan of greater than 50,000 hours, unless otherwise noted with an asterisk(*). Provided the light was installed by a certified installer, there is no need for care and maintenance of the fixtures.

* Arey products are rated for > 20,000 hours.

Piper products are rated for > 30,000 hours.

MLED products are rated for > 36,000 hours
