

Power Above. Power Below. Productivity Everywhere.

From phones and tablets to performance laptops, Nik+ keeps devices charged and within reach. By combining accessible desktop power with an integrated under-desk power strip, it helps create a more productive workspace with fewer cords and less clutter.

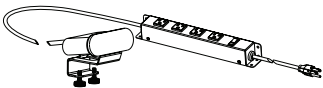

- Commercial-grade quality
- Choose from a 4- or 5-outlet power strip below the work surface integrated with your choice of a clamp or under mounted desktop power unit
- Desktop power unit is highly customizable with dozens of [color finishes](#) and cord options available
- Included circuit breaker on power strip for added safety

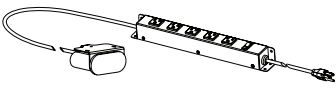

Powers and charges:
