Large with integrated Nik unit features (8) AC receptacles - (4) in the front and (4) in the back, and (2) DC jacks- 120W or 200W total with (1) attached Nik unit.

SPECIFICATION NOTES:

- Each unit Includes two cord managers. Additional cord managers are available for purchase.
- Tamper-resistant outlets are available as a special order. Please contact Inside Sales at 800.526.5658 for a lead time estimate.
- AC receptacles are available with a south orientation only (ground pin down).
- The maximum total number of AC receptacles available on any size Angus + Nik combination is eight.
- Straight strain relief is standard. A 90° angle is also available. Please contact Inside Sales at 800.526.5658 to specify.
- Not intended for interlinking. Plugging other power units or extension cords into the AC receptacles may violate your local electrical code.
- If specifying an integrated Nik unit, every AC receptacle included within the Nik unit removes an AC receptacle from the back of the Angus unit.
- If specifying a integrated Nik option, multiple power configurations of Nik are available. Please refer to the Nik product specs for more detail.
- If specifying a integrated Nik option, please note that in-surface mounting is not available.
- The under-mount requires a surface of a minimum .75" thickness.
- Interconnect cords are available to connect LightCorp Revo, Voyage, Tino, and Reed Premier fixtures.
