stella storage cart

stella

Stella's slim profile maximizes personal storage with a minimal footprint. Choose from three profiles including a mobile configuration that provides quick mobility for flexible office floorplans. A contrast in materiality, her sturdy steel construction harmonizes beautifully with white oak accents and a top tray felt lining that gives tactility and warmth. Quick-add accessories like the easy to install cleat or the Abel wall hook give headphones and cables a place to hang out. Available in seven finishes and three felt colors.

Designed by Jesse Hill.
