

Power that moves with the way people work

Power is essential in workspaces—from keeping phones and tablets charged to supporting laptops, lighting, and accessories. Nik puts outlets and charging ports within reach, making it easy to stay productive. With three mounting options and multiple port configurations, Nik adapts across applications—making power a seamless upgrade for workspaces of all kinds.

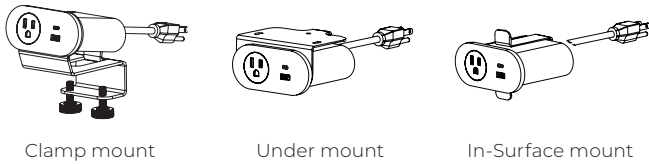

- Commercial-grade quality
- Choose from clamp mount, under mount, or in-surface mount to fit a variety of applications
- Highly customizable with dozens of [color finishes](#) and cord options available
